

Sign-In Electronically™ Network Questionnaire

Basic Requirements:

- A. All computers on the network have read and write access to the folder that contains the database.
- B. The number of networked computers that require exclusive alert notification of database changes other than the one with the tablet installed is 15 or less.
- C. The Network does not use “Roaming” profiles.

Please be as accurate and complete on all questions as you can.

1. Does your network meet the above requirements?

- Yes
- No

2. Type of network that will be used for the Sign-In Program.

- Peer to Peer (Database on one of the peer computers)
- Client/Server (Database on a server)

3. Type of Network Connection.

- Ethernet
- Wireless
- Both

3a. If you chose Ethernet Connection, what is the connection speed

- 10 Mbps - Number at this speed _____
- 100 Mbps-Number at this speed _____
- 1000 Mbps or faster - Number at this speed _____

3b. If you chose Wireless, what is the Wireless type

- IEEE 802.11a - Number of this type _____
- IEEE 802.11b - Number of this type _____
- IEEE 802.11g - Number of this type _____
- IEEE 802.11n - Number of this type _____
- Other-Specify _____ - Number of this type _____

4. Operating System on the computer that will contain the tablet and database. (For Client/Server types, this is the Server)

- Windows 2000 Workstation
- Windows XP Pro
- Windows XP Home
- Windows Vista Business/Enterprise
- Windows Vista Home Basic/Premium
- Windows 7 Professional
- Windows 7 Home Premium
- Other (specify) _____

Sign-In Electronically™ Network Questionnaire

5. Operating System on networked computers. (On Client/Server types, these are the client computers)

- Windows 2000 Workstation
- Windows XP Pro
- Windows XP Home
- Windows Vista Business/Enterprise
- Windows Vista Home Basic/Premium
- Windows 7 Professional
- Windows 7 Home Premium
- Other (specify) _____

6. What is the name of the Anti-Virus software you are using? (If none, please enter none).

Name _____ Version: _____

7. What is the name of the Anti-Spyware software are you using? (If none, please enter none).

Name _____ Version: _____

8. What is the name of the firewall you are using? (If none, please enter none).

Name _____ Version: _____

9. What are the names of any other software that you are using on the computers that will contain the Sign-In Programs? (If none, please enter none).

Name _____ Version: _____

Name _____ Version: _____

Name _____ Version: _____

Name _____ Version: _____

Name _____ Version: _____

10. Number of Computers that will have access to the database other than the one that contains it.

Specify _____

10a. Of these, how many will be using the Sign-In Network Viewer Program to remotely view the database in real time?

Specify _____

10. Will there more than one user account used per computer?

Yes

No

If yes, how many Administrator per computer? _____

how many Limited or Standard per computer? _____

Sign-In Electronically™ Network Questionnaire

11. If on a client/server network, can the folder on the server containing the database be mapped on the client computers?
- Yes
 - No
12. Approximately how many signatures will be captured in an average week?
- Less than 100
 - 100 to 1000
 - 1000 to 2500
 - More than 2500
13. Comments or other Information you may deem desirable.:

Thank You
